Did They Ever Send It?

12 clips × 8 s ≈ 96 s · horizontal 16:9 · three characters: Greg (Gentle Dental, general dentist), Tanya and Amanda (St. Andrew's Family Dental, specialist) · professional live-action look.

The idea

- **A different problem from Buried in Emails:** the referral loop that never closes. Sarah is about to get her crown at Gentle Dental, and the specialist's signed completion note never arrived.
- **Three characters, two offices:** Greg at the general dentist's office calls Tanya at the specialist's office; the note was signed Friday, but nobody is sure whether it went by email or fax. Nobody is blamed: "Every office sends things a different way."
- **Amanda and Tanya introduce Tooth Referral by name:** one case for every referral, both offices on it; messages, X-rays, insurance and the signed note on the case. They invite Greg's office.
- **One month later:** Greg finds the signed note already on the case and copies it into the electronic health record; Tanya's phone stays quiet; X-rays and the secure insurance link live in the same place; setup took five minutes.
- **Continuous clips:** every prompt starts from a named start image and the exact starting position, so each clip continues from the last frame of the one before it.

CAST AND VOICES

Who is who

- **Greg**, Front Desk, Gentle Dental (general dentist). ElevenLabs voice: Chris.
- **Tanya**, Front Desk, St. Andrew's Family Dental (specialist). ElevenLabs voice: Bella.
- **Amanda**, Treatment Coordinator, St. Andrew's Family Dental (specialist). ElevenLabs voice: a calm, warm premade female voice (different from Bella).

Sarah and David are patients who are only mentioned, never on screen. Run each speaker's lines through one consistent ElevenLabs voice so the voice never drifts between clips.

Keeping every clip continuous
How to keep every clip continuous: clips 01 and 09 start from the Gentle Dental cast image, clips 02 and 10 from the St. Andrew's cast image. Every other clip starts from the last frame of the clip named in its prompt (in Google Flow, save that last frame and use it as the start frame, or use "Extend" on that clip). Add the background and avatar images as ingredients too.

Start image: the last frame of clip 05. Continue from the exact position in the start image: the clip begins on that frame, with the same camera angle, framing, lighting, props, and the same position, pose and expression of every character, and the action continues naturally from there, with no jump, reset or change of outfit. Starting position: TANYA sits at the left workstation leaning back, holding the printed page; AMANDA sits at the right workstation, exactly as at the end of clip 05.
Horizontal 16:9 video, 8 seconds, one continuous shot. Photorealistic live-action footage that looks professionally filmed, not AI-generated: shot on a cinema camera (Sony FX3 look) with a 35mm lens, natural daylight plus soft practical office lights, true-to-life colours, real skin texture with pores, subtle film grain, natural imperfections, natural unhurried movement, no glossy or plastic look.
Background (exactly as the St. Andrew's background image): The front office of a real, calm, upscale dental specialist practice. A curved reception desk with fluted white panels and a warm wood top; behind it two workstations with slim black monitors angled away from the camera, keyboards, a black desk phone, a paper tray with printed pages, a pen cup and folders, and a spare rolling chair. A deep navy feature wall behind the desk with a blank brushed-brass sign shape (no letters). On the right a hallway to treatment rooms with frosted glass doors and a glimpse of a modern dental chair and overhead light. Warm greige walls, wood floors, three brass pendant lights over the desk, a large fiddle-leaf fig, a tall window with soft late-afternoon golden light. Real-photo texture, subtle grain.
Characters (exactly as their avatar images):
TANYA (Front Desk, St. Andrew's Family Dental): a woman in her late 20s with long dark curly hair in a high ponytail, warm brown eyes, light natural makeup and small gold hoop earrings. She wears lavender scrubs and a small blank white name badge (no text). Energetic, quick and friendly.
AMANDA (Treatment Coordinator, St. Andrew's Family Dental): a woman in her early 40s with straight black hair in a neat low bun, black-framed glasses, dark brown eyes, light natural makeup and small silver studs. She wears an olive-green scrub top over a white long-sleeve undershirt and a small blank white name badge (no text). Calm, organised and thoughtful.
Action: AMANDA gets up from her chair, walks around behind Tanya (0 to 3 seconds), pulls the spare rolling chair over and sits down next to her, turning Tanya's monitor slightly toward them both (soft glow, screen not readable). TANYA puts the page down and turns her chair toward Amanda, interested.
Camera: medium-wide two-shot from the waiting area, eye level, the camera drifts gently with Amanda as she walks over, then holds on the two of them.
AMANDA speaks with a calm, warm early-40s female voice with a natural neutral American accent, calm, decided. Perfectly lip-synced: "This keeps happening. Let's set up Tooth Referral." TANYA speaks with a bright, quick late-20s female voice with a natural neutral American accent, curious. Perfectly lip-synced: "Tooth Referral?" AMANDA speaks with a calm, warm early-40s female voice with a natural neutral American accent, clear, easy. Perfectly lip-synced: "One case for every referral. Both offices on it."
Audio: only the spoken lines, footsteps, a chair rolling and quiet office room tone. No music, no subtitles, no captions, no on-screen text, no readable screens, no logos, no red clothing or props, no extra people, no warped hands or fingers, no lip-sync drift, no sudden objects appearing in hands, no jump cut or reset at the start.
