Where The Hell Is That X-Ray?

POV story, relatable panic turning into calm. Every specialist has lived the 4:58 PM missing-X-ray moment.

LENGTH	MADE IN	GOAL
8 clips × 8 s = 64 s	Google Flow, one 8 s clip per segment	Awareness and value, not a sale: no prices, no sign-up

Why this version

A story hook works with dental teams because they recognise it instantly; the dashboard then answers the exact problem in the hook, which shows the value without a sales line.

The whole script at a glance

00-08 s	**Hook** · “POV: it's 4:58, patient's in the chair, and the GP swears they sent the X-ray. Where the hell is it?”
08-16 s	**The usual suspects** · “Spoiler: it's buried in someone's inbox. Or a fax tray. Or page three of an email chain from June.”
16-24 s	**How it should work** · “Here's how it should work. Every incoming referral, from every office, in one list you can trust.”
24-32 s	**There it is** · “Open the patient, and the X-rays are right there, shared with both offices. Insurance card too, front and back.”
32-40 s	**Ask in the case** · “Missing something? Message the GP inside the case. Tag them, they answer, and it's saved with the patient.”
40-48 s	**No callbacks** · “Then update the status. The referring office sees it instantly. No callbacks, no "any update?" emails.”
48-56 s	**The network** · “And every office you work with stays connected. That's not just software. That's a referral network that works.”
56-64 s	**Close** · “So next time it's 4:58? You'll know exactly where that X-ray is. Calm. Collected. Connected.”

Presenter and set (already written into every prompt)

Same presenter and set as the earlier ToothReferral videos (swap in your avatar's own description if it differs): a man in his early 30s, short dark textured hair, light stubble, grey knit crew-neck sweater, black podcast mic on a boom arm entering from frame left, warm home studio behind him (wooden shelf with plants, Edison-bulb lamps, soft purple-blue wall light). Vertical 9:16, medium close-up from mid-chest up, eye level, camera locked off, the same framing in every clip.

Before you generate

- **One clip = one segment = 8 seconds.** Keep every line to the words written (14 to 20 words fits 8 s at a natural pace). Longer lines get rushed or cut.
- **Start and end every clip in the rest pose.** Hands relaxed at chest height, looking at camera, mouth closed for about half a second at the very start and end. This is what lets me join the clips so they feel like one take.
- **Gestures happen inside the frame, at chest-to-shoulder height.** A hand that leaves the frame cannot be tracked, and the animation that rides on it has nowhere to land.
- **Point at the same places every time.** Upper-left = where the dashboard panel will appear. Right side = where chat / notifications appear. Keep these consistent so the animations always land where he points.
- **Paste the dark 'Google Flow prompt' box as is, one box per clip.** Each box is complete on its own: presenter and set, camera, a second-by-second beat sheet of hand gestures with the words they land on, facial expression, head movement and the spoken line. The same prompts are in the matching -Flow-prompts.txt file, which copies cleaner than a PDF. If Flow blocks a swear word, use the clean line given at the end of that prompt.

Gesture key (what each gesture turns into in the edit)

POINT	index finger to a spot: a panel, callout or highlight appears there
SWIPE	flat hand across the body: the screen changes in that direction
COUNT	fingers 1-2-3: items pop in one per finger
TAP	a small forward finger tap in the air: a click / button press
PINCH-OUT	fingers spread apart: zoom into the dashboard
JOIN	hands come together / fingers interlock: offices connect into one network
TOSS	flick over the shoulder: the old way gets thrown out of frame

01 Hook 00-08 s

> **“POV: it's 4:58, patient's in the chair, and the GP swears they sent the X-ray. Where the hell is it?”**

FACIAL EXPRESSION

Rising panic: wide eyes, then an exasperated open-mouth "seriously?".

HEAD MOVEMENT

Quick glances left and right, as if searching.

HAND GESTURES (TIMED)

0.5-1.5 s Taps his wrist (the time).
1.5-6 s POINT down (the chair).
6-7.5 s Throws both arms out, palms up ("where?").

ON SCREEN (YOUR DASHBOARD RECORDING)

Presenter only: no dashboard yet

No screen yet.

Edit / animation riding the gesture: A "4:58 PM" clock pops at his wrist; an empty inbox and question marks burst out when his arms open.

Google Flow prompt (copy all of this box):

Vertical 9:16 video, 8 seconds, one continuous shot. A man in his early 30s with short dark textured hair, light stubble and a grey knit crew-neck sweater sits at his desk and talks to camera. A black podcast mic on a boom arm enters from frame left. Behind him: a warm home studio with a wooden shelf of plants, Edison-bulb lamps and a soft purple-blue wall light. Medium close-up from mid-chest up, eye level.
Camera: locked off, no zoom, no cuts, the same framing for the whole clip. Warm soft key light, natural skin tones, photoreal, shallow depth of field. Both hands always stay inside the frame, between chest and shoulder height.
0.0-0.5 s: Rest pose, hands relaxed together at chest height, shoulders loose, looking straight into the lens, mouth closed.
0.5-1.5 s: He taps his wrist like checking a watch, on the words "POV: it's 4:58,"
1.5-6 s: He points down, on the words "patient's in the chair, and the GP swears they sent the X-ray."
6-7.5 s: He throws both arms out to the sides, palms up, on the words "Where the hell is it?"
7.5-8.0 s: Returns to the same rest pose, hands relaxed together at chest height, shoulders loose, looking straight into the lens, mouth closed.
Facial expression: Rising panic: wide eyes, then an exasperated open-mouth "seriously?".
Head movement: Quick glances left and right, as if searching.
Gestures are natural, smooth and deliberate, not rushed; each gesture lands on the words next to it.
Dialogue, spoken to camera in a natural, confident American male voice, perfectly lip-synced: "POV: it's 4:58, patient's in the chair, and the GP swears they sent the X-ray. Where the hell is it?"
Audio: only his voice, quiet room tone. No music, no subtitles, no captions, no on-screen text, no logos.
If the swear word is blocked, use this instead: "Where on earth is it?"

02 The usual suspects 08-16 s

> **“Spoiler: it's buried in someone's inbox. Or a fax tray. Or page three of an email chain from June.”**

FACIAL EXPRESSION

Knowing smirk; an eye-roll on "from June".

HEAD MOVEMENT

Tilts a little further with each "or".

HAND GESTURES (TIMED)

0.5-7 s COUNT 1-2-3: inbox / fax tray / email chain.
7-7.5 s Flicks the fingers away dismissively.

ON SCREEN (YOUR DASHBOARD RECORDING)

Presenter only: no dashboard yet

No screen yet.

Edit / animation riding the gesture: Three hiding places pop one per finger; the email chain scrolls forever; the flick blows them away.

03 How it should work 16-24 s

> **“Here's how it should work. Every incoming referral, from every office, in one list you can trust.”**

FACIAL EXPRESSION

Composed and sincere; the joke steps back.

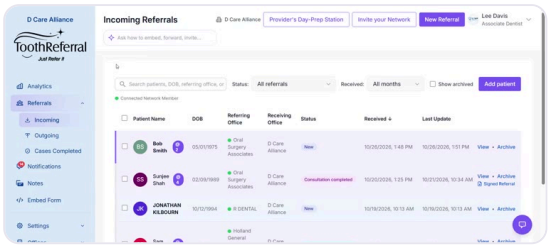

HEAD MOVEMENT

Slight nod, then turns to look at the upper-left panel.

HAND GESTURES (TIMED)

0.5-2.5 s Palm-down smoothing SWIPE (calm it down).
2.5-7.5 s POINT up-left and hold.

ON SCREEN (YOUR DASHBOARD RECORDING)

rec 0:00-0:06 Incoming Referrals list.

Edit / animation riding the gesture: The smoothing swipe settles the chaos; the list slides in upper-left where he points.

04 There it is 24-32 s

> **“Open the patient, and the X-rays are right there, shared with both offices. Insurance card too, front and back.”**

FACIAL EXPRESSION

Relieved little laugh; "finally" face.

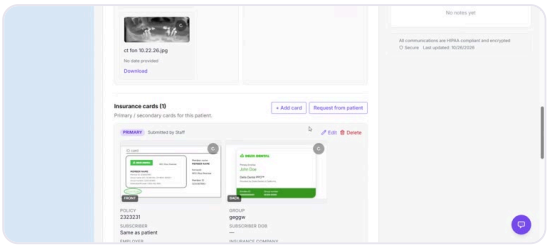

HEAD MOVEMENT

Nods on "right there".

HAND GESTURES (TIMED)

0.5-1.5 s Opens the hands like a book.
1.5-5.5 s PINCH-OUT (zoom).
5.5-7.5 s Flips the hand over (front / back).

ON SCREEN (YOUR DASHBOARD RECORDING)

rec 0:24-0:34 X-rays, then insurance card front and back.

Edit / animation riding the gesture: The case opens with his hands; zoom into the X-ray on the pinch; the insurance card flips front-to-back with his hand.

05 Ask in the case 32-40 s

> **“Missing something? Message the GP inside the case. Tag them, they answer, and it's saved with the patient.”**

FACIAL EXPRESSION

Curious, then pleased.

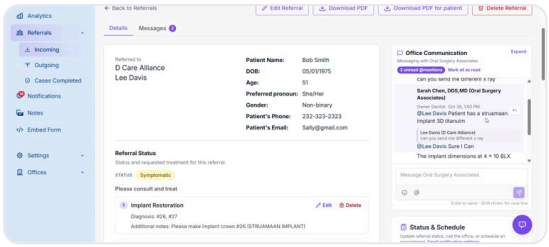

HEAD MOVEMENT

Tilt on "missing something"; small nod on "saved".

HAND GESTURES (TIMED)

0.5-3.5 s Types in the air.
3.5-5 s POINT forward (the @ tag).
5-7.5 s Pats the open palm (saved, kept).

ON SCREEN (YOUR DASHBOARD RECORDING)

rec 0:10-0:22 chat, "2 unread @mentions".

Edit / animation riding the gesture: Messages pop as he types; an @mention badge appears on the point; a "saved to case" tick when he pats his palm.

06 No callbacks 40-48 s

> **“Then update the status. The referring office sees it instantly. No callbacks, no "any update?" emails.”**

FACIAL EXPRESSION

Confident; playful eye-roll on "any update".

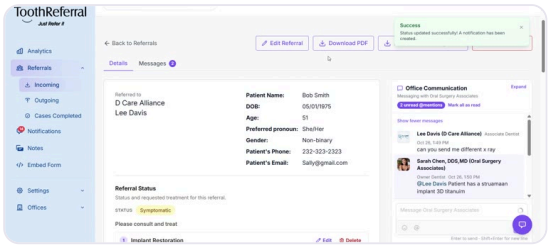

HEAD MOVEMENT

Nod on "instantly", head shake on "no callbacks".

HAND GESTURES (TIMED)

0.5 - 2 s	TAP (the click).
2 - 5 s	Pushes the palm forward/right (sent).
5 - 7.5 s	Wags a finger: no.

ON SCREEN (YOUR DASHBOARD RECORDING)

rec 0:57-1:05 status update, Success toast.
