SCRIPT 19 · VARIATION A · GOOGLE FLOW · TIKTOK 9:16

"Day One" (solo): the founder's selfie vlog

An endodontist's first day: the website, the referral-form decision, and the first referral through Tooth Referral. One character only: the founder films everything herself. 13 clips × 8 s ≈ 1:44. For a 60-80 s TikTok cut, drop clips 02, 05 and 13.

How to generate in Flow

- **Every clip is filmed by her, on her phone's front camera:** arm's-length selfie, slight wide-angle, her arm at the frame edge, natural hand sway, eyes on the lens. Every prompt says this; never a tripod, gimbal or third-person shot.
- Generate the founder still first from the avatar prompt below, and use it as the reference image for every clip, so her face, hair and clothes never change.
- Paste each prompt as it is. Lines are kept to about 20 words so they fit 8 seconds; two-speaker clips say who talks first.
- "Tooth Referral" is written as two words so Flow says it right. If it slips, re-voice that one line in ElevenLabs.
- Use the last frame of a clip to start the next one when they are in the same place (clips 03-08 in the office, 09-11 at the front desk).
- In the edit, add captions and short inserts of the real Tooth Referral form (logo/insurance, tooth chart, insurance link) over clips 06-08 and the incoming referral over clip 10. Screens in the footage stay unreadable on purpose.

Avatar prompt (generate this first, as an image)

Smart-casual, not medical clothing, but a clear doctor vibe from the clinic background, the glasses and watch, and her calm, precise presence. Generate this still in Imagen/Flow and use it as the reference image for every clip. For clip 01 (parking lot) keep the outfit and swap the background for the outside of the new office.

Vertical 9:16 photorealistic portrait, shot on a smartphone front camera at arm's length (selfie), natural phone-photo look, real skin texture with pores and light freckles, no beauty filter, subtle grain, true-to-life colours. A confident woman in her mid-30s who owns a brand-new endodontic dental practice. Shoulder-length dark-brown hair in soft loose waves tucked behind her left ear, warm brown eyes, light freckles, natural minimal makeup, small gold stud earrings, a thin gold necklace, a slim minimalist watch, clear tortoiseshell glasses. She wears a tailored navy blazer with the sleeves pushed up slightly over a fitted cream knit top, smart and polished but not medical. No scrubs, no white coat, no stethoscope, no name badge. She looks clean, precise and calm, like someone who is very good with her hands and her patients: steady eye contact, a warm, slightly proud half-smile, relaxed shoulders, one hand lifted near her face holding a ring of new keys. Background, softly out of focus: the bright treatment room of her new practice, a modern dental chair, a surgical microscope on an arm, an overhead dental light, white walls with a sage-green accent wall, a light-oak cabinet, daylight from a window. Lived-in, professional, real. No readable text, no logos, no red clothing or objects, no extra people, no warped hands or fingers.

Characters (built into every prompt)

THE FOUNDER	a woman in her mid-30s who owns a new endodontic practice, shoulder-length dark-brown hair in soft loose waves tucked behind her left ear, warm brown eyes, light freckles, clear tortoiseshell glasses, small gold stud earrings, a thin gold necklace and a slim watch, wearing a tailored navy blazer with sleeves slightly pushed up over a fitted cream knit top (no scrubs, no white coat, no stethoscope, no name badge). Voice: a warm, natural, slightly fast female voice in her mid-30s, neutral American accent, excited and a little nervous, the same voice in every clip

The script

01	**THE FOUNDER:** Day one. Fourteen years of school, one very big loan, and a building that smells like fresh paint.
02	**THE FOUNDER:** Two operatories, a microscope, a CBCT. What I don't have yet... is patients.
03	**THE FOUNDER:** Okay, the website. My designer's template has a referral form. Doctor's name, patient's name... Social Security number?
04	**THE FOUNDER:** And when they hit submit, it becomes an email, in an inbox I'll check between patients. Maybe.
05	**THE FOUNDER:** Nobody tells you this: your referrals are your business. And I almost ran mine through a contact form.
06	**THE FOUNDER:** So I chose Tooth Referral. It sits on my own website, with my logo, my insurance, what I'm known for.
07	**THE FOUNDER:** It's HIPAA compliant and encrypted. They pick the procedure, tap the tooth, attach the X-rays. Three steps.
08	**THE FOUNDER:** And the patient uploads their own insurance with a secure link. Every referral becomes a case we can track.
09	**THE FOUNDER:** The form is live. I just invited the five offices I know. Gentle Dental first. That was my old practice.
10	**THE FOUNDER:** Wait... a referral. Gentle Dental. Root canal, tooth nineteen. X-rays attached, and her insurance is already uploaded.
11	**THE FOUNDER:** Our first patient. I'm calling her right now. And Gentle Dental sees every update, so nobody has to call to ask.
12	**THE FOUNDER:** One referral. It came in complete, it's tracked, and the office that sent it knows exactly where it stands.
13	**THE FOUNDER:** Starting a practice is hard. Losing referrals shouldn't be part of it.

End card (edit): Tooth Referral logo · "Starting a practice is hard. Losing referrals shouldn't be part of it." · "Set up in about 5 minutes" · toothreferral.com

Clips and Google Flow prompts

CLIP 01 **The hook** 0-8 s · 18 words

THE FOUNDER "Day one. Fourteen years of school, one very big loan, and a building that smells like fresh paint."

Emotion	Bright, nervous excitement; a disbelieving little laugh on "very big loan".
Hands	Right hand holds the phone at arm's length; left hand holds a jingling ring of new keys up beside her face on "Day one", then lowers it.
Head	Small head shake on "very big loan", eyebrows up, deep breath and a smile at the end.
Camera	Selfie at arm's length, slightly above eye level, she walks slowly toward the glass door; the building behind her shoulder.

GOOGLE FLOW PROMPT (PASTE AS IS)

She is holding her own phone in her right hand and recording herself through the phone's front camera, like a selfie video. Vertical 9:16 video, 8 seconds, one continuous shot. Authentic TikTok vlog recorded by the speaker herself on her smartphone front camera (selfie mode): she holds the phone in her right hand at arm's length, so the frame is slightly wide-angle with mild lens distortion near the edges, her right shoulder and the top of her arm are partly visible at the frame edge, the phone itself is never visible, the camera moves with her hand (natural small sways and tiny re-framings, never a tripod or gimbal), she looks into the lens as if into her own phone screen. Natural phone-video look, auto exposure, real skin texture with pores and light freckles, no beauty filter, subtle grain, true-to-life colours. Not AI-looking, not cinematic.
An early-morning parking lot outside a small, brand-new single-storey dental office with a glass door and fresh landscaping, soft sunrise light, a few empty parking spaces.
THE FOUNDER: a woman in her mid-30s who owns a new endodontic practice, shoulder-length dark-brown hair in soft loose waves tucked behind her left ear, warm brown eyes, light freckles, clear tortoiseshell glasses, small gold stud earrings, a thin gold necklace and a slim watch, wearing a tailored navy blazer with sleeves slightly pushed up over a fitted cream knit top (no scrubs, no white coat, no stethoscope, no name badge).
Emotion: Bright, nervous excitement; a disbelieving little laugh on "very big loan".
Hands: Right hand holds the phone at arm's length; left hand holds a jingling ring of new keys up beside her face on "Day one", then lowers it.
Head and body: Small head shake on "very big loan", eyebrows up, deep breath and a smile at the end.
Camera: Selfie at arm's length, slightly above eye level, she walks slowly toward the glass door; the building behind her shoulder. Always a handheld front-camera selfie, phone held by her own arm; never a third-person shot.
THE FOUNDER speaks with a warm, natural, slightly fast female voice in her mid-30s, neutral American accent, excited and a little nervous, the same voice in every clip. Perfectly lip-synced: "Day one. Fourteen years of school, one very big loan, and a building that smells like fresh paint."
Audio: only the spoken line, keys jingling, birds and quiet room tone. No music, no subtitles, no captions, no on-screen text, no readable screens, no logos, no name tags with text, no red clothing or props, no extra people, no warped hands or fingers, no lip-sync drift.

CLIP 02 **The empty office** 8-16 s · 13 words

THE FOUNDER "Two operatories, a microscope, a CBCT. What I don't have yet... is patients."

Emotion	Proud while listing; then a beat of honest worry on "is patients", a wry half-smile.
Hands	Phone in right hand; left hand counts on fingers (one, two, three) on the three items, then flips the switch-panel lights on and opens toward the empty room.
Head	Turns her head to look over the room on the list, then back to the lens, a small shrug on "patients".
Camera	Selfie walking in through the door, the lobby and the treatment room behind her; lights come on mid-clip.

CLIP 03 **The template** 16-24 s · 17 words

THE FOUNDER "Okay, the website. My designer's template has a referral form. Doctor's name, patient's name... Social Security number?"

Emotion	Focused, then her face falls into a puzzled frown on "Social Security number?".
Hands	Phone in her right hand at arm's length; her left index finger scrolls the laptop trackpad, then points at the screen, then her left palm turns up toward the lens on the question.
Head	Leans toward the laptop, then pulls back and looks into the lens, one eyebrow raised.
Camera	Handheld front-camera selfie at arm's length, seated at the desk, slightly above eye level, laptop glow on her face.

CLIP 04 **Where does it go?** 24-32 s · 17 words

THE FOUNDER "And when they hit submit, it becomes an email, in an inbox I'll check between patients. Maybe."

Emotion	Dry, honest; a skeptical squint on "Maybe".
Hands	Mimes pressing a button with her index finger on "submit", then draws an envelope shape in the air, then a so-so wobble of her flat hand on "Maybe".
Head	Tilts her head on "inbox", a slow knowing nod at the end.
Camera	Handheld front-camera selfie at arm's length, she brings the phone a little closer as she talks.

CLIP 05 **The realisation** 32-40 s · 18 words

THE FOUNDER "Nobody tells you this: your referrals are your business. And I almost ran mine through a contact form."

Emotion	Serious and sincere, then self-aware embarrassment, a short laugh at herself.
Hands	Leans in toward the phone; her free hand taps two fingers on the desk on "your business", then covers her eyes for a second on "contact form".
Head	Leans close to the lens on the first sentence, then tips her head back laughing.
Camera	Handheld front-camera selfie close-up, slight natural sway.

Natural phone-video look, auto exposure, real skin texture with pores and light freckles, no beauty filter, subtle grain, true-to-life colours. Not AI-looking, not cinematic.
The front desk of the new practice in the afternoon: white quartz counter, a slim monitor angled away from camera (soft glow, no readable screen), a desk phone, a small plant, a sage-green wall behind, daylight through the window.
THE FOUNDER: a woman in her mid-30s who owns a new endodontic practice, shoulder-length dark-brown hair in soft loose waves tucked behind her left ear, warm brown eyes, light freckles, clear tortoiseshell glasses, small gold stud earrings, a thin gold necklace and a slim watch, wearing a tailored navy blazer with sleeves slightly pushed up over a fitted cream knit top (no scrubs, no white coat, no stethoscope, no name badge).
Emotion: Proud, a little emotional on "my old practice".
Hands: Phone in right hand; left hand taps the monitor edge on "live", counts five fingers on "five offices", then rests on her heart on "my old practice".
Head and body: Glances at the monitor, back to the lens, a soft nostalgic smile.
Camera: Selfie at the empty front desk, monitor glow behind her shoulder, afternoon daylight. Always a handheld front-camera selfie, phone held by her own arm; never a third-person shot.
THE FOUNDER speaks with a warm, natural, slightly fast female voice in her mid-30s, neutral American accent, excited and a little nervous, the same voice in every clip. Perfectly lip-synced: "The form is live. I just invited the five offices I know. Gentle Dental first. That was my old practice."
Audio: only the spoken line and quiet room tone. No music, no subtitles, no captions, no on-screen text, no readable screens, no logos, no name tags with text, no red clothing or props, no extra people, no warped hands or fingers, no lip-sync drift.

CLIP 10 **The first referral** 72-80 s · 17 words

THE FOUNDER "Wait... a referral. Gentle Dental. Root canal, tooth nineteen. X-rays attached, and her insurance is already uploaded."

Emotion	Surprise turning into delight; she reads fast, eyes widening.
Hands	A soft notification chime; she turns her body so the monitor glow is behind her, points at the screen with her free index finger, then covers her mouth.
Head	Snaps her head toward the monitor on the chime, then back to the lens, eyes wide.
Camera	Handheld front-camera selfie, she turns so the glowing monitor is behind her shoulder, slightly shaky from excitement.

GOOGLE FLOW PROMPT (PASTE AS IS)

She is holding her own phone in her right hand and recording herself through the phone's front camera, like a selfie video. Vertical 9:16 video, 8 seconds, one continuous shot. Authentic TikTok vlog recorded by the speaker herself on her smartphone front camera (selfie mode): she holds the phone in her right hand at arm's length, so the frame is slightly wide-angle with mild lens distortion near the edges, her right shoulder and the top of her arm are partly visible at the frame edge, the phone itself is never visible, the camera moves with her hand (natural small sways and tiny re-framings, never a tripod or gimbal), she looks into the lens as if into her own phone screen. Natural phone-video look, auto exposure, real skin texture with pores and light freckles, no beauty filter, subtle grain, true-to-life colours. Not AI-looking, not cinematic.

CLIP 11 **Our first patient** 80-88 s · 21 words

THE FOUNDER "Our first patient. I'm calling her right now. And Gentle Dental sees every update, so nobody has to call to ask."

Emotion	Quiet and emotional on the first words, then focused and happy.
Hands	Presses her free hand flat to her chest on "Our first patient", then picks up the desk-phone handset and holds it up to the lens.
Head	Lets out a breath, blinks fast, then a determined nod.
Camera	Selfie close-up at the desk, phone handset entering frame.

CLIP 12 **Closing up** 88-96 s · 19 words

THE FOUNDER "One referral. It came in complete, it's tracked, and the office that sent it knows exactly where it stands."

Emotion	Tired but deeply satisfied, calm and warm.
Hands	Free hand turns off the desk lamp switch halfway through, then rests on the counter.
Head	Slow nod, soft smile, looks around the quiet office.
Camera	Selfie at the front desk at dusk, warm lamp light, slightly lower energy and steadier handheld.

CLIP 13 **The line to remember** 96-104 s · 12 words

THE FOUNDER "Starting a practice is hard. Losing referrals shouldn't be part of it."

Emotion	Sincere, direct to camera; a small confident smile on the last word.
Hands	Free hand gives a small open-palm gesture toward the lens on "Losing referrals", then she reaches for the door.
Head	Holds eye contact, a final nod.
Camera	Selfie walking out through the glass door into the dark parking lot, keys in hand.
