THE OLD WAY

The same letter, retyped for every patient.

Names, dates, offices and tooth numbers copied by hand, printed, signed and faxed back. Every single time.

SMART TEMPLATES

Variables fill themselves in.

Build a template once. Patient, DOB, both offices, specialty, X-ray images and dates appear on every note.

WORKS WITH YOUR RECORDS

Copy the note straight into your EHR.

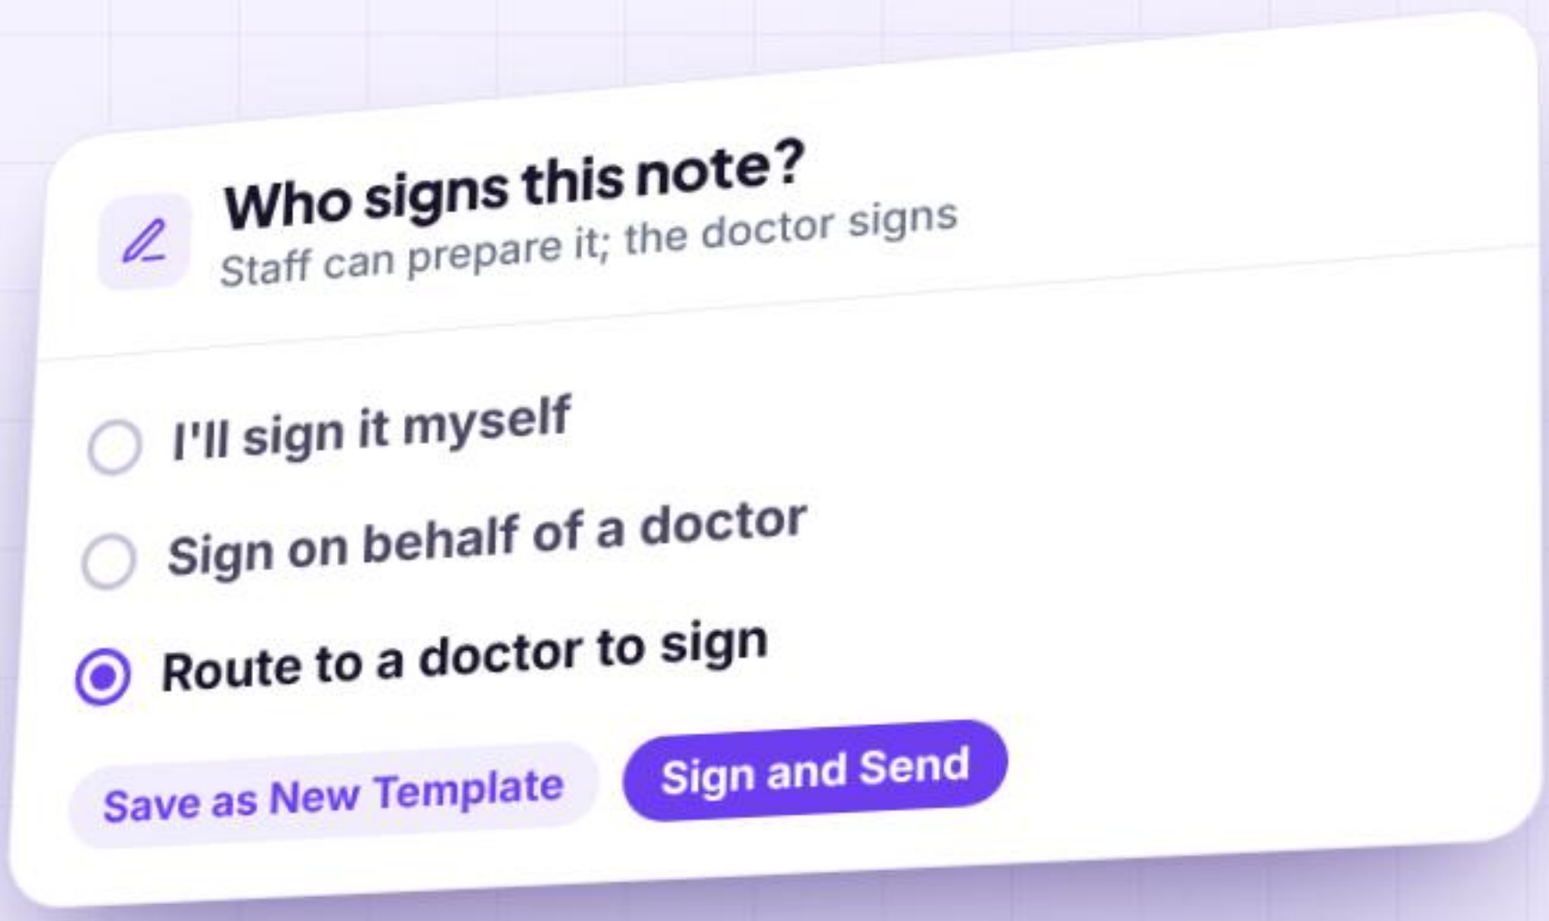

Each note is ready to paste into your own patient health record, so your charts stay in sync.

STAFF PREPARE, DOCTORS SIGN

Route the note to the doctor.

An assistant drafts it from the template. The doctor signs it themselves, or a teammate signs on their behalf.

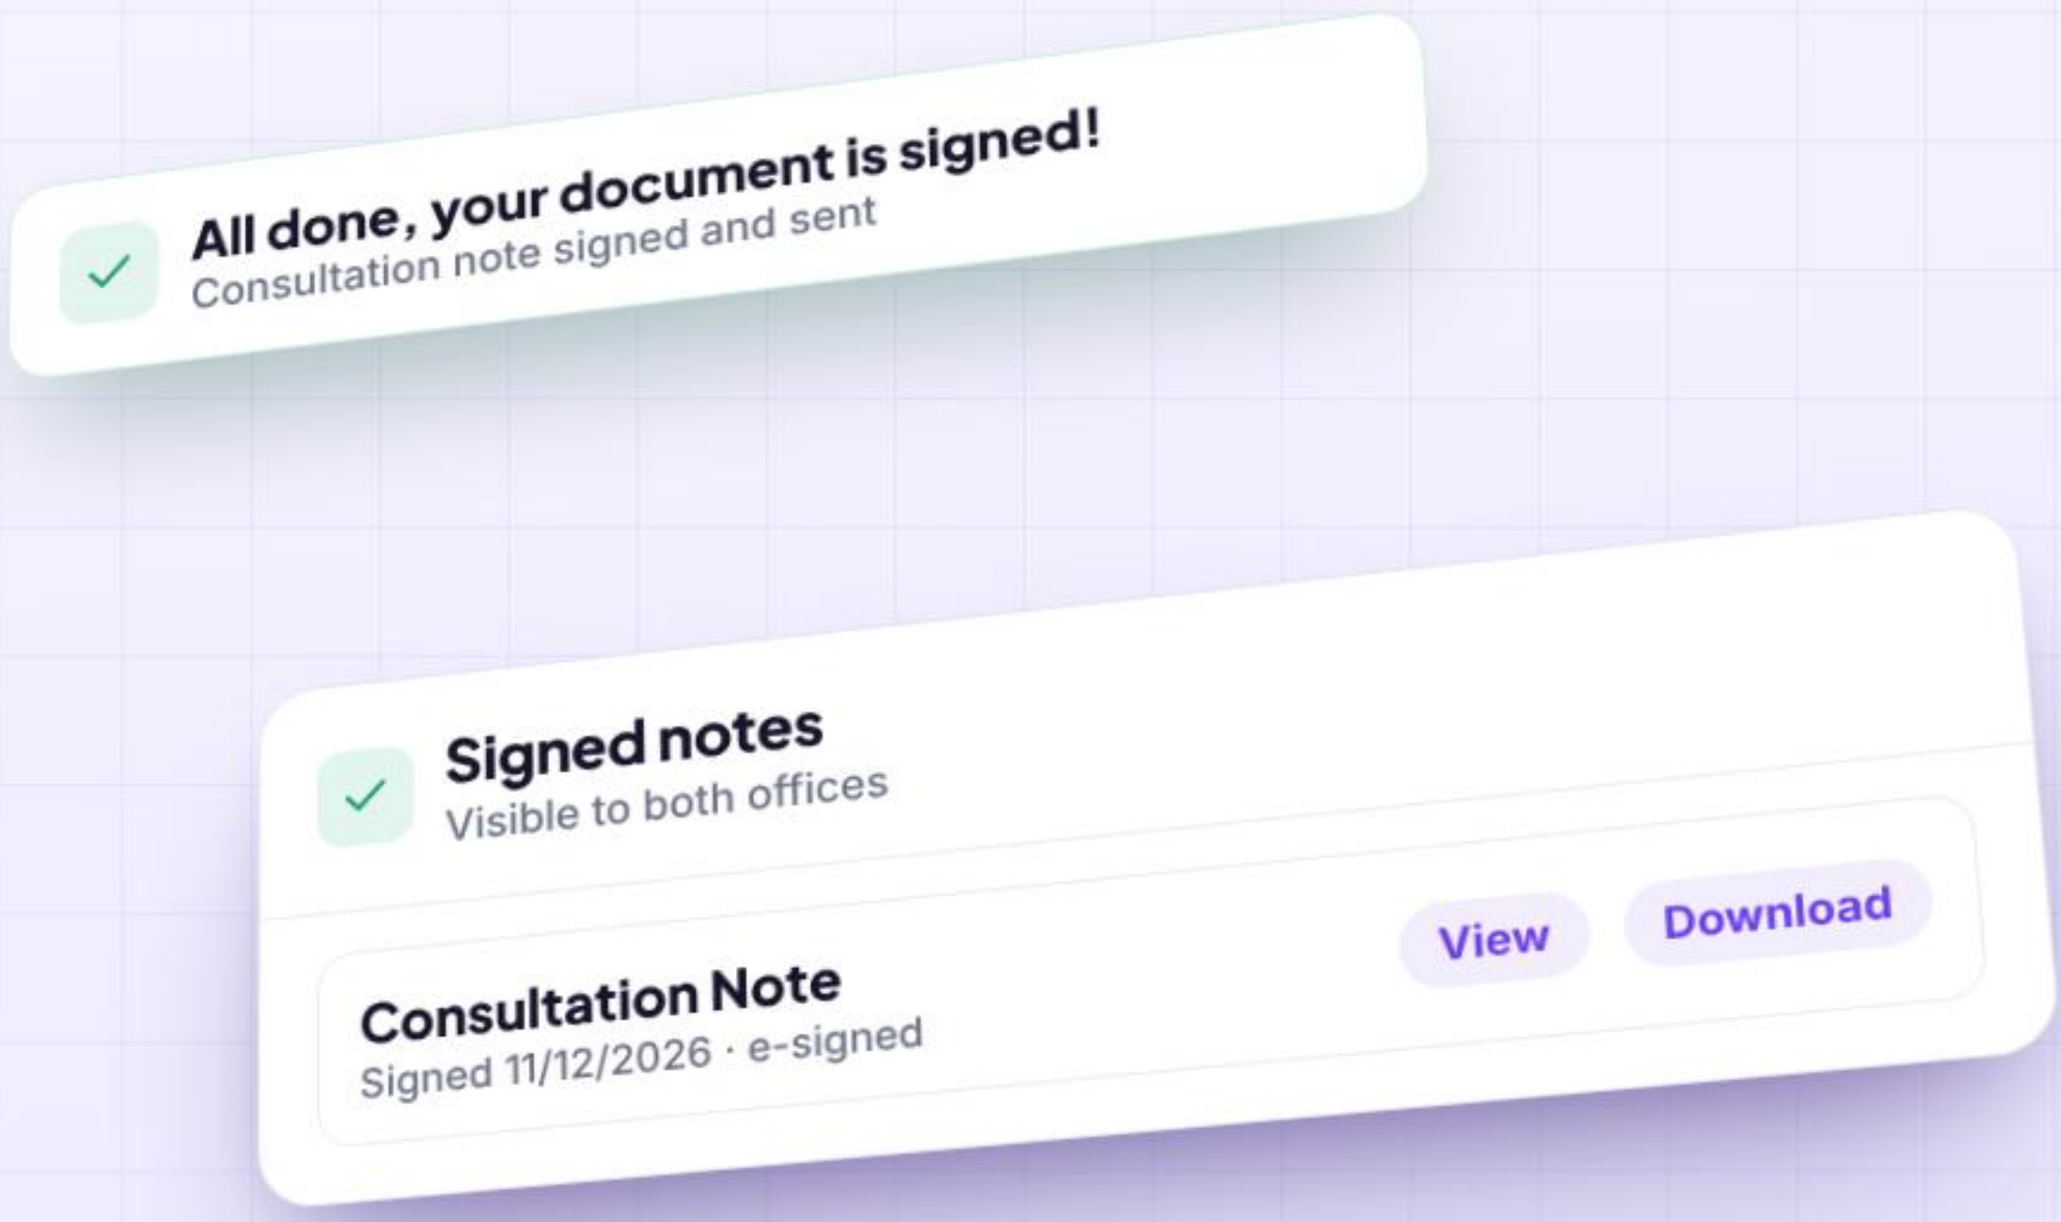

E-signature built in

Save as a template

CLOSING THE LOOP

Signed, sent and visible to both offices.

The signed consultation note lands on the case for the referring dentist. No printing, no fax.

ToothReferral
Just Refer it

Notes that write themselves. Letters that sign themselves.

Templates, smart variables, EHR-ready notes and e-signatures, built into every Tooth Referral case.
