TOOTH REFERRAL · SCRIPTS 21 TO 23 · THE FEATURE SERIES

After "Buried in Emails": now show the software

Three scripts that build from the first video. Same front desk, same people (Tanya and Amanda, then Greg). Video 1 set the hook: referrals buried in emails, voicemails and faxes, and one promise, "every referral came in as one case". Each new episode takes one part of that promise and **shows it on the real screens**, feature by feature, and ends on a question that makes the viewer want the next one.

Vejay's notes this answers (13 Nov)

- "Build from the first video, the buried one." Every episode quotes a line from video 1 and pays it off.
- "Focus on showing the features of the software." Each clip names the exact Tooth Referral screen on view; the dialogue is two colleagues using it, not describing it.
- "People need to turn the page with curiosity." Each script ends on an open question that the next episode answers.
- "Send me topics before you produce: hook, goal, and how it builds from the first video." The topics are below; nothing gets produced until you approve them.

Topics for approval

Script 21 · Episode 2 · One Case (The first referral arrives)

Topic	What a referral looks like when it arrives in Tooth Referral: one case, already complete.
Hook	"Last week this referral would have been an email, a voicemail and a fax. Watch it arrive today."
Goal	Show the product, not talk about it. The viewer sees one referral open as one case and thinks: "I want my Monday to look like that."
Builds from video 1	In video 1 Amanda promised: "Every referral came in as one case... X-rays, insurance, messages, status. Whoever opens it sees everything." This episode shows exactly that promise on screen, one click at a time, with the same email-voicemail-fax referral from video 1.
Turns the page	Ends on: "Wait till you see what it does with the completion letter." (opens Script 22)

Script 22 · Episode 3 · The Letter That Writes Itself (Completion notes, signed and sent before five)

Topic	Notes: templates that fill themselves in, e-signature, the signed note on the case for both offices, and copy into your electronic health record.
Hook	"It's ten to five, and Tanya has three completion letters to send. Why does she look so calm?"
Goal	Show the feature most offices do not expect from a "referral form": the paperwork after treatment. The viewer should see the letter fill itself in and get signed, and want to try it on their own letters.
Builds from video 1	Video 1 opened with a patient who never got a call back and a team "losing steam". This is the other end of the same referral: the loop closes on time, without staying late. It also pays off the last line of Script 21 ("wait till you see what it does with the completion letter").
Turns the page	Ends on: "So what happens when one of us is out?" · "Ask Greg tomorrow. I'm taking the day off." (opens Script 23)

Script 23 · Episode 4 · Tanya's Day Off (Anyone can pick it up)

Topic	The system keeps working when a person is out: statuses, private notes, reminders, the insurance request link and the notifications feed.
Hook	"Tanya's out today. A month ago, that meant her referrals were out too."
Goal	Prove the "system for the team" idea with features. The viewer sees a colleague pick up every open referral in minutes and understands this is what protects the practice when staff are out.
Builds from video 1	In video 1 Tanya asked: "So if I'm out tomorrow..." and Amanda answered: "Greg opens it and knows exactly where it stands. No digging through anyone's email." This episode is that exact day. It also answers the old problem from video 1: "every referral lives in someone's inbox or someone's head".
Turns the page	Ends on: "The doctor should see what this looks like from the owner's chair." · "The numbers? That's a whole other conversation." (opens the Analytics episode)

Each script: 11 clips of about 8 seconds (about 90 seconds). Horizontal 16:9 like video 1, with the split-screen dashboard. Script only; filming prompts come after approval. Demo data: Gentle Dental (general dentist) refers to the specialist office where Tanya, Amanda and Greg work. No doctors are named.

SCRIPT 21 · EPISODE 2 OF THE SERIES

One Case

The first referral arrives · 11 clips · about 90 seconds · 172 spoken words

Topic	What a referral looks like when it arrives in Tooth Referral: one case, already complete.
Hook	"Last week this referral would have been an email, a voicemail and a fax. Watch it arrive today."
Goal	Show the product, not talk about it. The viewer sees one referral open as one case and thinks: "I want my Monday to look like that."
Builds from video 1	In video 1 Amanda promised: "Every referral came in as one case... X-rays, insurance, messages, status. Whoever opens it sees everything." This episode shows exactly that promise on screen, one click at a time, with the same email-voicemail-fax referral from video 1.
Turns the page	Ends on: "Wait till you see what it does with the completion letter." (opens Script 22)
Cast and set	Tanya and Amanda, at the same front desk as Buried in Emails. Monday morning, first day on Tooth Referral.

FEATURES SHOWN

Incoming referrals list · The case: procedures, tooth number, chief complaint · X-rays and the signed referral, shared with both offices · Insurance cards (front and back) · Office Communication with @mentions · Status chips and scheduling · Status updates to the referring office · Activity log

The script

	DIALOGUE	ON SCREEN (TOOTH REFERRAL)
01	**First morning** **Tanya:** “Okay. First morning on Tooth Referral. Last week, this one referral was an email, a voicemail and a fax.” **Amanda:** “And today?”	Full frame on the two of them. The three pop-ups from video 1 (email, voicemail, fax) appear greyed out, then fade.
02	**One line** **Tanya:** “One line. Emma Park, from Gentle Dental. It just says... New.”	Incoming referrals list. A new row slides in: patient, referring office, status "New", the green Connected Network Member dot.

03	**Already here** **Tanya:** “Wait. Her X-rays are already here. And the signed referral.” **Amanda:** “Gentle Dental attached them when they sent it.”	Inside the case: Attachments "shared with both offices" (X-rays), then Signed notes "Visible to both offices".
04	**Nothing to ask** **Tanya:** “Tooth number, chief complaint, 'please consult and treat'. I don't have to call and ask anything.”	Referral Status block: type, chief complaint, numbered procedure with tooth and diagnosis. Purple highlight on each as she reads.
05	**The card** **Amanda:** “Check the insurance.” **Tanya:** “Front and back of the card. Policy, group. I'm not retyping a thing.”	Insurance cards panel: front and back images, policy and group numbers.
06	**Ask on the case** **Tanya:** “I do have one question for them, though.” **Amanda:** “Ask it right there. Type 'at Greg'.”	Office Communication panel opens. Cursor in the message box, "@" brings up Greg (Gentle Dental).
07	**He answered** **Tanya:** “'Is she okay with mornings?'... He already answered. 'Mornings are perfect.'”	The message sends with the @Greg mention highlighted; the reply from Greg (Gentle Dental · Front Desk) arrives under it.
08	**Set the status** **Amanda:** “Now set the status.” **Tanya:** “Consultation scheduled. Thursday, nine a.m.”	Status & Schedule chips. She clicks Consultation Scheduled, picks the date, Save & update status. Green success toast.
09	**They already know** **Tanya:** “Does Gentle Dental know she's booked?” **Amanda:** “They just got the update. Nobody has to call anybody.”	Split: on Gentle Dental's side the same case now shows "Consultation Scheduled". A notification: "consultation scheduled".
10	**Every step** **Tanya:** “And down here... every step. Who did it, and when.” **Amanda:** “So if you're out, I'm not guessing.”	Activity log: created by Gentle Dental, X-rays added, message sent, consultation scheduled, each with a name and time.
11	**Four minutes** **Tanya:** “That took four minutes. Last week it was half my morning.” **Amanda:** “Wait till you see what it does with the completion letter.”	Back to full frame. Tanya leans back, surprised. End card.

End card: Tooth Referral. One case for every referral. · toothreferral.com

SCRIPT 22 · EPISODE 3 OF THE SERIES

The Letter That Writes Itself

Completion notes, signed and sent before five · 11 clips · about 90 seconds · 167 spoken words

Topic	Notes: templates that fill themselves in, e-signature, the signed note on the case for both offices, and copy into your electronic health record.
Hook	"It's ten to five, and Tanya has three completion letters to send. Why does she look so calm?"
Goal	Show the feature most offices do not expect from a "referral form": the paperwork after treatment. The viewer should see the letter fill itself in and get signed, and want to try it on their own letters.
Builds from video 1	Video 1 opened with a patient who never got a call back and a team "losing steam". This is the other end of the same referral: the loop closes on time, without staying late. It also pays off the last line of Script 21 ("wait till you see what it does with the completion letter").
Turns the page	Ends on: "So what happens when one of us is out?" · "Ask Greg tomorrow. I'm taking the day off." (opens Script 23)
Cast and set	Tanya and Amanda, same front desk, late afternoon. Amanda has her coat on.

FEATURES SHOWN

Status change prompts the note · Note templates with smart variables (auto-filled) · Import your own letter from Word or PDF · Who signs: route to a doctor to sign · E-signature (DocuSign) · Signed notes visible to both offices · Copy into your electronic health record · Private Administrative Notes and reminders

The script

	DIALOGUE	ON SCREEN (TOOTH REFERRAL)
01	**Ten to five** **Amanda:** “It's ten to five. Why do you look so calm?” **Tanya:** “Three completion letters to send. Watch this.”	Full frame. Clock chip: 4:50 PM. A small stack of three "Completion letter" cards beside Tanya.
02	**It asks for the note** **Tanya:** “Emma Park's treatment is done. I change the status to Completed...” **Amanda:** “...and it asks you for the note.”	Status chips: she clicks Completed. The note creator opens by itself ("Prepare note").

03	**Our own letter** **Tanya:** “That's our own letter. We imported it from Word. Now look at the names.”	Template picker, then the letter. "Import from Word / PDF" button visible. The purple variable chips light up one by one.
04	**All filled in** **Tanya:** “Her name, date of birth, the referring office, today's date. All filled in.” **Amanda:** “You didn't type any of that?”	Close-up of the letter: Patient Name, Patient DOB, Referring Office Name, Today's Date switch from codes to real values (Show values).
05	**Two lines** **Tanya:** “It pulls it from the case. I just add two lines about the visit.”	She types two short lines in the body. Preview.
06	**Route it** **Amanda:** “But the doctor has to sign it.” **Tanya:** “So I route it to the doctor. One click.”	"Who signs this note?" · I'll sign it myself · Sign on behalf of a doctor · Route to a doctor to sign (selected).
07	**Signed** **Tanya:** “Signed. No printing, no scanning, no fax.”	The e-signature step: signature placed, Finish, then "All done — your document is signed!" and the green success toast.
08	**Both offices** **Amanda:** “And Gentle Dental?” **Tanya:** “It's on the case. Greg can open it right now.”	Signed notes panel: "Completion Note · Signed · Visible to both offices". Split: the same note on Gentle Dental's side.
09	**Our chart** **Amanda:** “What about our own chart?” **Tanya:** “Copy, paste. Straight into our electronic health record.”	The line "Copy and paste into your patient electronic health record as a note" with the copy action highlighted.
10	**Just for us** **Tanya:** “And this stays with us. 'Call Emma Friday.' With a reminder.” **Amanda:** “We used to stay late for those letters.”	Administrative Notes: "Company-private notes. Not shared with other parties." Then "Remind me on Friday".
11	**Day off** **Amanda:** “So what happens when one of us is out?” **Tanya:** “Ask Greg tomorrow. I'm taking the day off.”	Full frame. Tanya picks up her bag, smiling. Clock chip: 4:58 PM. End card.

End card: Tooth Referral. Completion letters that write themselves. · toothreferral.com

SCRIPT 23 · EPISODE 4 OF THE SERIES

Tanya's Day Off

Anyone can pick it up · 11 clips · about 90 seconds · 177 spoken words

Topic	The system keeps working when a person is out: statuses, private notes, reminders, the insurance request link and the notifications feed.
Hook	"Tanya's out today. A month ago, that meant her referrals were out too."
Goal	Prove the "system for the team" idea with features. The viewer sees a colleague pick up every open referral in minutes and understands this is what protects the practice when staff are out.
Builds from video 1	In video 1 Tanya asked: "So if I'm out tomorrow..." and Amanda answered: "Greg opens it and knows exactly where it stands. No digging through anyone's email." This episode is that exact day. It also answers the old problem from video 1: "every referral lives in someone's inbox or someone's head".
Turns the page	Ends on: "The doctor should see what this looks like from the owner's chair." · "The numbers? That's a whole other conversation." (opens the Analytics episode)
Cast and set	Greg and Amanda, same front desk, the next morning. Tanya is out.

FEATURES SHOWN

Incoming list with statuses and filters · Contact statuses (Left a Voicemail, Callback Requested) · Private Administrative Notes · Next-step reminders · Request insurance from the patient (secure link) · Notifications feed (patient submitted insurance, messages, notes signed) · Office Communication with the referring office

The script

	DIALOGUE	ON SCREEN (TOOTH REFERRAL)
01	**Out today** **Amanda:** “Morning, Greg. Tanya's out today.” **Greg:** “I know. A month ago, that would've scared me.”	Full frame. Amanda walks in with coffee; Greg is already at Tanya's workstation. Chip: "Tanya · out today".
02	**Everything she had** **Greg:** “Now I just open Incoming. Everything she was working on. Each one with a status.”	Incoming referrals list: rows with different status pills. He uses the Status filter.

03	**Where she stopped** **Greg:** “Michael Turner. 'Left a voicemail', yesterday, ten past four. And her note: 'Try his cell after lunch.'”	The case: status "Left a Voicemail" with the time. Administrative Notes shows Tanya's private note.
04	**The reminder** **Amanda:** “So you know exactly where she stopped.” **Greg:** “And the reminder came to me this morning.”	Notification: reminder for Michael Turner today. "Next step: Remind me on..." shown on the case.
05	**Missing insurance** **Greg:** “This one's missing insurance. Before, I'd be calling the patient all day.” **Amanda:** “And now?”	Another case: the Insurance cards panel is empty. The button "Request from patient" pulses.
06	**Request from patient** **Greg:** “Request from patient. She gets a secure link and takes a picture of her card. Sent.”	Click on Request from patient. Green toast: "Success · Insurance request sent". The Activity log adds the entry.
07	**She sent it** **Amanda:** “And we find out how?” **Greg:** “Right here. 'Patient submitted insurance.' Front and back, on the case.”	Notifications feed: "patient submitted insurance". Then the card images appear in the Insurance panel.
08	**Everything that moved** **Greg:** “Notifications shows me everything that moved. A new referral, a message, a note signed.” **Amanda:** “From every office we work with.”	Notifications feed with the tabs All / Unread / Read and the Type filter (Status, Mentions, Insurance Submission).
09	**Any update?** **Amanda:** “Gentle Dental just messaged.” **Greg:** “'Any update on Michael Turner?' I answer on the case. 'Scheduled for Tuesday.'”	Office Communication: the question from Gentle Dental, Greg's reply. The status chip changes to Scheduled.
10	**Twenty minutes** **Amanda:** “You've been here twenty minutes.” **Greg:** “And nothing's waiting on Tanya coming back.”	Full frame. The Incoming list behind them: every row has moved on one step. Chip: "0 waiting on Tanya".
11	**The owner's chair** **Greg:** “Honestly? The doctor should see what this looks like from the owner's chair.” **Amanda:** “The numbers? Oh, that's a whole other conversation.”	Full frame. A one-second glimpse of the Analytics page, blurred. End card.
