TOOTH REFERRAL · EPISODE 2 · AVATARS AND GOOGLE FLOW

No More Phone Tag

15 clips × 8 s (trim to about 1:40 in the edit) · horizontal 16:9 · five characters · professional live-action look. The app screens are not generated in Flow: they come from the rebuilt screen clips (Day-Prep Station, Administrative notes, Office Communication).

How to use this

- Generate the reference images first (4 backgrounds, 5 avatars, 4 cast images), then the 15 clips in order.
- **Emotion:** every clip quotes Vejay's stage direction from the Episode 2 draft and turns it into an "Emotion" line and visible acting in the prompt.
- Tanya, Amanda and both front offices look exactly as in Script 20, so the series stays continuous.
- How to keep every clip continuous: clips 01, 02, 04 and 11 start from a cast image, clip 05 from the empty Gentle Dental background. Every other clip starts from the last frame of the clip named in its prompt (in Google Flow, save that last frame and use it as the start frame, or use "Extend" on that clip). Add the background and avatar images as ingredients too.
- Clips marked V.O. have no lip sync on purpose: the voice-over lines from the script (Dr. Vance, Amanda) are recorded in ElevenLabs and laid over them in the edit.

Starting position: TANYA and AMANDA sit side by side at the left workstation, Tanya leaning in toward the screen, exactly as at the end of clip 10.
Horizontal 16:9 video, 8 seconds, one continuous shot. Photorealistic live-action footage that looks professionally filmed, not AI-generated: shot on a cinema camera (Sony FX3 look) with a 35mm lens, natural daylight plus soft practical office lights, true-to-life colours, real skin texture with pores, subtle film grain, natural imperfections, natural unhurried movement, no glossy or plastic look.
Background (exactly as the St. Andrew's front desk background image): The front office of a real, calm, upscale dental specialist practice. A curved reception desk with fluted white panels and a warm wood top; behind it two workstations with slim black monitors angled away from the camera, keyboards, a black desk phone with a small amber message light, a paper tray with printed pages, a pen cup and folders, and a spare rolling chair. A deep navy feature wall behind the desk with a blank brushed-brass sign shape (no letters). On the right a hallway to treatment rooms with frosted glass doors. Warm greige walls, wood floors, three brass pendant lights over the desk, a large fiddle-leaf fig, a round analog wall clock with a white face and plain black hands (no numbers or brand), a tall window with soft morning light. Real-photo texture, subtle grain.
Characters (exactly as their avatar images):
AMANDA (Office Manager / Treatment Coordinator, St. Andrew's): a woman in her early 40s with straight black hair in a neat low bun, black-framed glasses, dark brown eyes, light natural makeup and small silver studs. She wears an olive-green scrub top over a white long-sleeve undershirt and a small blank white name badge (no text). Calm, organised and thoughtful.
TANYA (Front Desk Coordinator, St. Andrew's): a woman in her late 20s with long dark curly hair in a high ponytail, warm brown eyes, light natural makeup and small gold hoop earrings. She wears lavender scrubs and a small blank white name badge (no text). Energetic, quick and friendly.
Emotion: Disbelief, then amused delight.
Action: TANYA stares at the screen, sits back, looks at AMANDA in disbelief and laughs, gesturing at the desk phone on "calling each other". Amanda smiles and stands up.
Camera: medium close-up on Tanya, Amanda at the right edge, eye level, static.
TANYA speaks with a bright, quick late-20s female voice with a natural neutral American accent, in disbelief, a surprised laugh. Perfectly lip-synced: "That took thirty seconds. Why are we still calling each other?"
Audio: only the spoken lines, a surprised laugh and quiet room tone. No music, no subtitles, no captions, no on-screen text, no readable screens, no logos, no red clothing or props, no extra people, no warped hands or fingers, no lip-sync drift, no sudden objects appearing in hands, no jump cut or reset at the start.
