FOR DENTAL SPECIALISTS

Most specialists think they need more referrals from general dentists.

Your biggest leak is inside your own front office.

WHERE REFERRALS LEAK

One referral. Three ways to lose it.

A general dentist sends you a patient

Missed voicemail

Left on Monday. Tuesday is slammed. The patient goes cold.

One wrong click on a busy day

“Scheduled” instead of “Received”. The case drops off every list.

Staff turnover

A coordinator moves on. Their follow-ups leave with them.

THE COST

Tens of thousands in lost production, every month.

Not from dentists who stopped referring.
From patients they already sent you.
