WHAT BUYERS SEE: KEY-PERSON RISK

Your pipeline depends on one person.

Your referral pipeline today

One coordinator's memory
Who called, who's waiting, who needs a reminder.

Sticky notes and a private inbox
Nobody else can see what's pending.

They leave, the pipeline stalls
Buyers and DSOs price that risk in.

THE RETURN

3 ways it pays for itself.

One referral can cover the software

One new referral
Pays for a full year of the software, in most cases.

One referral saved from leaking
Pays for at least 8 months.

One referral won back by great communication
Priceless. And yes, it pays for a full year.
